Customer Support

Read and understand all the instructions to avoid injury to yourself and damage to the equipment.

Do not expose to extreme temperatures (above 95°F or below 23°F). Do not expose to moisture.	Do not subject the unit to severe impact, or place heavy objects on it.	Do not let any foreign matter spill into the device.
Be careful not to subject the player to excessive pressure when wearing it round your neck.	Do not expose to chemicals such as benzene and thinners.	Remove batteries when the device is left unused for a long period of time.
Do not expose to direct sunlight or heat sources.	Do not store in dusty areas.	Do not try to disassemble and repair the device yourself.

✻ Please be aware that we claim no responsibility for damage from data loss
   due to breakdown, repair or other causes.

Earphones

Follow Traffic Safety Instructions
● Do not use the earphones while driving an automobile or riding a bicycle.
  It's not only dangerous, but also against the law.
● It may cause an accident if you turn up the volume of the earphones while walking.
  especially when crossing intersections.

Protect your ears
● Do not turn up the volume too high. Doctors warn against prolonged exposure to high volume.
● Stop using the device or turn the volume down if you have ringing in your ears.

Ambient operating conditions

● Ambient temperature : 5℃ ~ 35℃ (41°F ~ 95°F)
  Humidity : 10 ~ 75%

Environmental Information

● Follow local guidelines for waste disposal when discarding packages, batteries,
  and old electronic appliances.
● Your player is packaged with cardboard, polyethylene etc., and does not use any unnecessary materials.

ENG

MP3, WMA , ASF and Ogg Playback

● The player supports playback of MP3, WMA, ASF and Ogg.

Removable Storage Device

● You can easily copy and paste files to the player using Windows Explorer.

Direct MP3 Recording

● You can convert music from CDs, cassettes, and radio into
  MP3 files without a PC.

3D Sound

● The 3D surround feature adds spaciousness to the sound.

USB 2.0 Support

● Maximum data speed transfer of 18 Mbps.

Upgradable

● You can upgrade the built-in programs when available.
  Add functions, CODEC, etc. Please check the home page
 (www.samsung.com) for upgrades.

42 Hours of Continuous Play

● This player uses one AA/LR6 alkaline battery. Operation can last up to 42hours.
  Actual playing time may vary according to the type and capacity of the battery.

Voice Recording Function

● You can make high quality voice recordings.

Connecting the player to PC

¤ **System Requirements.**

The PC system must meet the
following specifications:
● Pentium 200MHz or greater
● Windows 98 SE/ME/2000/XP
● 40MB of available hard disk space
● CD-ROM drive
  (double speed or greater)
● USB port (2.0) supported
● VGA graphic

Note
- Install the operating system in Administrator Account
  mode for Windows 2000 or XP. Otherwise,
  installation will not be completed.
- Windows ME, 2000 and XP can recognize the driver
  without installing the provided program. However,
  you must install the program in order to format yepp and
  upgrade firmware.
- If the YP-MT6 program has not been installed in
  Windows 98, then it will not communicate with your
 removable disk. You must install the USB driver file first.

Before connecting yepp to PC, make sure to install USB driver. If **"Add New Hardware Wizard"**
appears, press the **[Cancel]** button and install the USB driver.

Installing software

1 Insert the Installation CD into the
CD-ROM drive.
Select **[Install yepp USB Driver].**

2 Follow the instructions in the window to complete the installation.
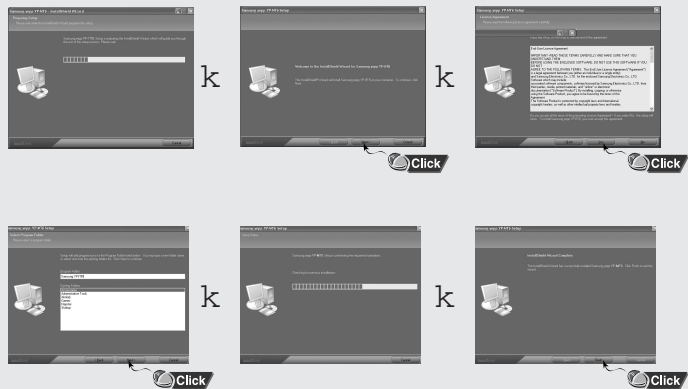

Connecting yepp to PC with the USB cable

1 Connect the USB cable to the USB port on the computer.

2 Connect the other end of the USB cable to the USB cable connection port on the bottom of the player.
 ● If you disconnect the USB cable from your PC while implementing a command or initializing during USB driver installation, your PC may not function correctly.

3 The USB driver is installed with a message saying that it is searching for a new device. You may not see the display screen during installation.
Go to the device manager to check that installation has been successfully completed.

4 Upon installation of the USB driver "Samsung yepp YP-MT6 USB Device" will appear in the **[System Properties]** → **[Device Manager]**.

Direct Connect USB Adaptor

USB Cable

ENG

Connecting the player to PC
How to check USB driver

Windows 98:
Control Panel → System → Device Manager → Disk Drives → Samsung yepp YP-MT6

Windows 2000:
Control Panel → System → Hardware → Device Manager → Disk Drives →
Samsung yepp YP-MT6 USB Device

Windows XP:
Control Panel → System → Hardware → Device Manager → Universal Serial Bus controllers →
Disk Drives → Samsung yepp YP-MT6 USB Device
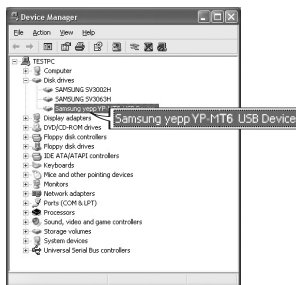

5 When the USB driver is not installed automatically, refer to the next page.

Manual Installation of USB Driver

Go to "Downloading/Uploading files" if the USB driver is in installed.
Follow these steps if the USB driver is not in installed :

When an error occurs during installation of the USB driver

*1* Check the device manager.

Windows 98,ME:
Control Panel → System → Device Manager
Windows 2000:
Control Panel → System → Hardware →
Device Manager
Windows XP:
Control Panel → System → Hardware →
Device Manager

2 Check if there is a device listed with an exclamation point or a question mark
(displayed as unknown device or USB device).

3 Double click on the device listed with an exclamation point or a question mark.

✎ Note
- If you are using Windows 2000 and your version of Windows does not recognize the USB driver
  please download and install the latest service pack from windowsupdate.microsoft.com
- The installation method may vary depending on the type of PC or operating system.
  Contact your PC dealer or service center for installation information.
- If errors occur continuously when you install the USB driver, reconnect the USB cable after
 rebooting your system.

ENG

4 After selecting the driver, click **[Update Driver].**

5 Click **[Next].**

6 Select **[Search for a suitable driver for my device]** and then click **[Next].**

7 Click **[Next]** to finish.

In Windows 98

Follow the instructions in the window to complete the installation.

USB driver location
[CD ROM]\setup\Drivers

: You must reboot your computer to complete the installation.

✍ **Note**

- You cannot use it as a removable disc in Windows 98 if the YP-MT6 program is not installed. Make sure to install the USB driver file first.

ENG

Downloading/Uploading files

1 Connect the player to your PC with the supplied USB cable.

2 Open Windows Explorer on PC.
- Removable Disc is displayed in Windows Explorer.

3 Select the file to save and drag-and-drop it into the removable disk icon.
(In numerical, alphabetical order)
- If you change the name of music files in Windows Explorer like 001* * * , 002* * *...,
music files will be played in the order of number indicated.
✍ **Notice**

- The "WRITING/READING" message will appear during file download or upload. Disconnecting the USB cable while "WRITING/READING" is displayed may cause malfunction of the unit.

- The order of music files is not relative to the replay order when you select a Removable Disc in Windows Explorer.
Disconnecting the USB cable

After completing the file transfer, you must disconnect the cable in the following way:

1 Double-click on the green arrow in the taskbar on the bottom right of the window.

Safely Remove Hardware
Click

2 When the [Stop a Hardware device] message appears, press the [OK] button and disconnect the USB cable.

k
Click
Click

Formatting

1 Select the removable disc icon and click the right mouse button to select [Format].

2 Press the [Start] button.
- All saved files will be formatted.
- You can change the name of removable disc by selecting [Volume label].

Click
✍ **Note**

- By formatting, all previously preset menus will be initialized.
- Care must be taken as formatted files can not be recovered.

ENG

yepp Studio is the program that can convert and play back the music files in PC.

1 Insert the Installation CD into CD-ROM drive.
Select **[Install yepp Studio].**

2 Select language

●Click

●Click

3 Follow the instructions in the window to complete the installation.

● Please refer to Help for more information on how to use yepp Studio.

●Click

●Click
✍ Note

- If [Register Serial Number] window appears when you install the yepp Studio for the first time,
  enter the Serial Number (S/N) attached on the back of the player.

Run yepp Studio and press F1.

● Help will appear.

Move the arrow to the top of yepp Studio and right click on the mouse. The following selection window will appear.

● Click on Help and the Help window will appear.
✍ Note

- Music recognition technology and related data are provided by Gracenote and Gracenote CDDB® Music Recognition ServiceSM.
- CDDB is a registered trademark of Gracenote. The Gracenote logo and logotype, the Gracenote CDDB logo and logotype, and the "Powered by Gracenote CDDB" logo are trademarks of Gracenote. Music Recognition Service and MRS are service marks of Gracenote.

Turning Power On and Off

Power On : Press the ▶❙❙ button to turn on the power.
Power Off : Press and hold the ▶❙❙ button to turn off the power.

Playing Music (Power On)

Press the ▶❙❙ button.
● Playback starts.

Pausing Music (Power Off)

Press the ▶❙❙ button to pause playback.
● If no buttons are pressed within 10 seconds (changes depending on settings),
  the player automatically powers off.
● While in Pause mode, press the ▶❙❙ button again to resume playback.

Adjusting the Volume

Press the joystick up or down to adjust the volume from 00 to 30.

✎ Note

- If the file name is not displayed correctly, move to **[Settings]** ➔ **[Display]** ➔ **[Language]** and
  then change the language setting. When the language setting changes, the language in the
  menu screen changes accordingly.
- WMA files can only be played as music files with a compression rate of 48Kbps-192Kbps.
- The power off time can be set in the menu.

In Hold mode, all buttons are disabled.

Slide the ⬤ switch in the direction of the arrow.
✳ When the button is pressed, the "🔒 HOLD!" message will appear on the display.

ENG

Recording Voice

✳ *To move to other modes from the Voice mode,*
   refer to "Changing Mode".

1 Press and hold the **REC** button to start voice recording.
2 Press the **REC** button again to stop the recording and save the voice file.

✎ Note

- The files are recorded in the order of V001,V002......,
  and saved as WAV file in the VOICE folder after recording.
- If the Memory is full, Voice Recording is stopped automatically.

✽ *To move to other modes from LINE_ENC mode, refer to "Changing Mode".*

1 Connect the Audio Output port on the external audio source (or the Line Out port) to the ENC port on the device with the Line cable.

2 Press and hold the REC button to start MP3 encoding.

● If the ▶‖ button is pressed, encoding is paused and if the ▶‖ button is pressed again, the encoding resumes.

3 If the REC button is pressed during encoding, the encoding stops and an encoding file is created.

● The files are encoded in the order of L001, L002....
and saved as MP3 file in LINE_ENC folder after encoding.

✎ Note

- Bit Rates can be set within the range of 32Kbps~128Kbps.
- Volume can be adjusted while monitoring the Encoding.

✎ Notice

- Do not disconnect the Line cable during Encoding.
- If the battery is not sufficiently charged, the player will not completely encode the file.
- Adjust the volume of the external audio source to a suitable level and encode it.
  If the volume level is too high, the sound quality may be poor.

¤ **To search for specific parts during play**

● Press and hold the joystick left or right during playback to search for the part you want to listen to.
● Release the joystick to resume play normally.

¤ **To change tracks during play**

● Press the joystick to the ▶▶‖ position briefly during playback to play the next track.
● Press the joystick to the ‖◀◀ position briefly within 5 seconds after playback starts, to move to and play the previous track. Press the joystick to the ‖◀◀ position briefly after five seconds to play the current track from the beginning.

¤ **To change tracks when stopped**

● Press the joystick left or right in stop mode to move to the previous/next track.

✎ Note

- VBR(Variable Bit Rate) file: A file that constantly changes the compression rate according to the type of sounds, such as their pitch, in the file.
- In the case of a VBR file, you cannot move to and play the previous track even if you press the joystick to the ‖◀◀ position within 5 seconds after playback starts.
- Files that were downloaded in MP2 or MP1 and had their file extension changed to MP3 may not play.

ENG

| Specifications

Model	YP-MT6
Built-in Memory capacity	128MB(YP-MT6 H), 256MB(YP-MT6 V), 512MB(YP-MT6 X), 1GB(YP-MT6 Z)
Voltage	1.5V X 1 (AA/LR6 size alkaline battery)
Playing time	lasts up to 42hours (Alkaline battery, MP3 128Kbps, Vol level 20)
Dimensions/Weight	25.2 X 60.8 X24.2 mm / 36 g (without battery)
Case	Zinc/Plastic/Aluminuma
Noise Ratio	89dB with 20KHz LPF
Earphones Jack Output Power	5mW/CH (16Ω)
Output Frequency Range	20Hz~20KHz
Operating Temperature Range	-5 ~ +35°C(23~95°F)
File Support	MPEG1/2/2.5 Layer3(8Kbps ~ 320Kbps, 8KHz ~ 48KHz)
	WMA, ASF (8Kbps ~ 192Kbps, 8KHz ~ 48KHz), Ogg
